

# HEAVY DUTY FOUR MONITOR *Stand*

## **Free Standing Four Monitor Stand supports upto 13-32" Screen sizes per Arm**

Elevate your monitors to a comfortable viewing height with the freestanding four monitor mount from Jin Office. Constructed of high-grade steel, this stand was built to support a 13" to 32" monitor screen weighing up to 8 kgs. The modern appearance blends well with virtually any environment and desktop. Featuring full articulation and height adjustment along the center pole for optimal viewing, removable VESA plate for easy mounting, and integrated cable management to keep cords clean and organized, this stand was built for workplace excellence. All of the necessary hardware and instructions are provided for fast and easy installation, so you can get your screen mounted and providing ideal viewing angles in no time!

### **Solid Construction**

The monitor will be safe and secure on this mount which supports up to 8 kgs on each arm (total 32 kg)

### **Full Articulation**

An adjustable bracket offers 15° tilt, 90° swivel, 360° rotation. Monitor can be placed in portrait or landscape orientation

### **Removable VESA Plate**

The VESA bracket attaches directly to your screen and slides onto the stand for easy screen mounting

## **Technical Specs**

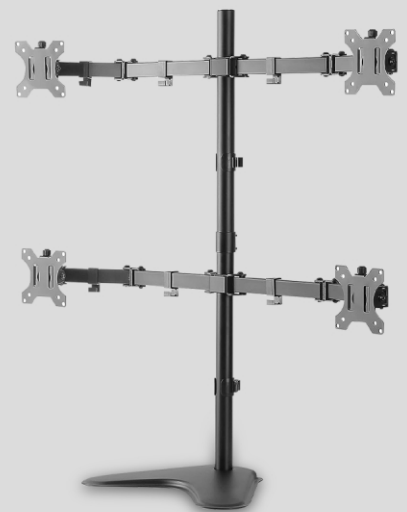

Color: Black

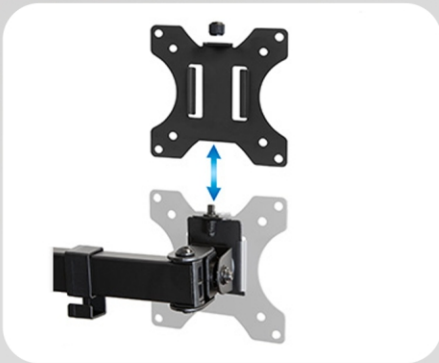

Screen Size: 13" to 32" inches

Weight Capacity per arm: 8 kgs (Total 32 kg)

VESA Standard: 75x75mm and 100x100mm

Height Adjustment: At all levels across pole length

### Detachable VESA Plate

Installing your monitor is quick and easy with the detachable VESA plate. Simply attach the plate to your monitor then, slide it into the bracket, and tighten the screw cap

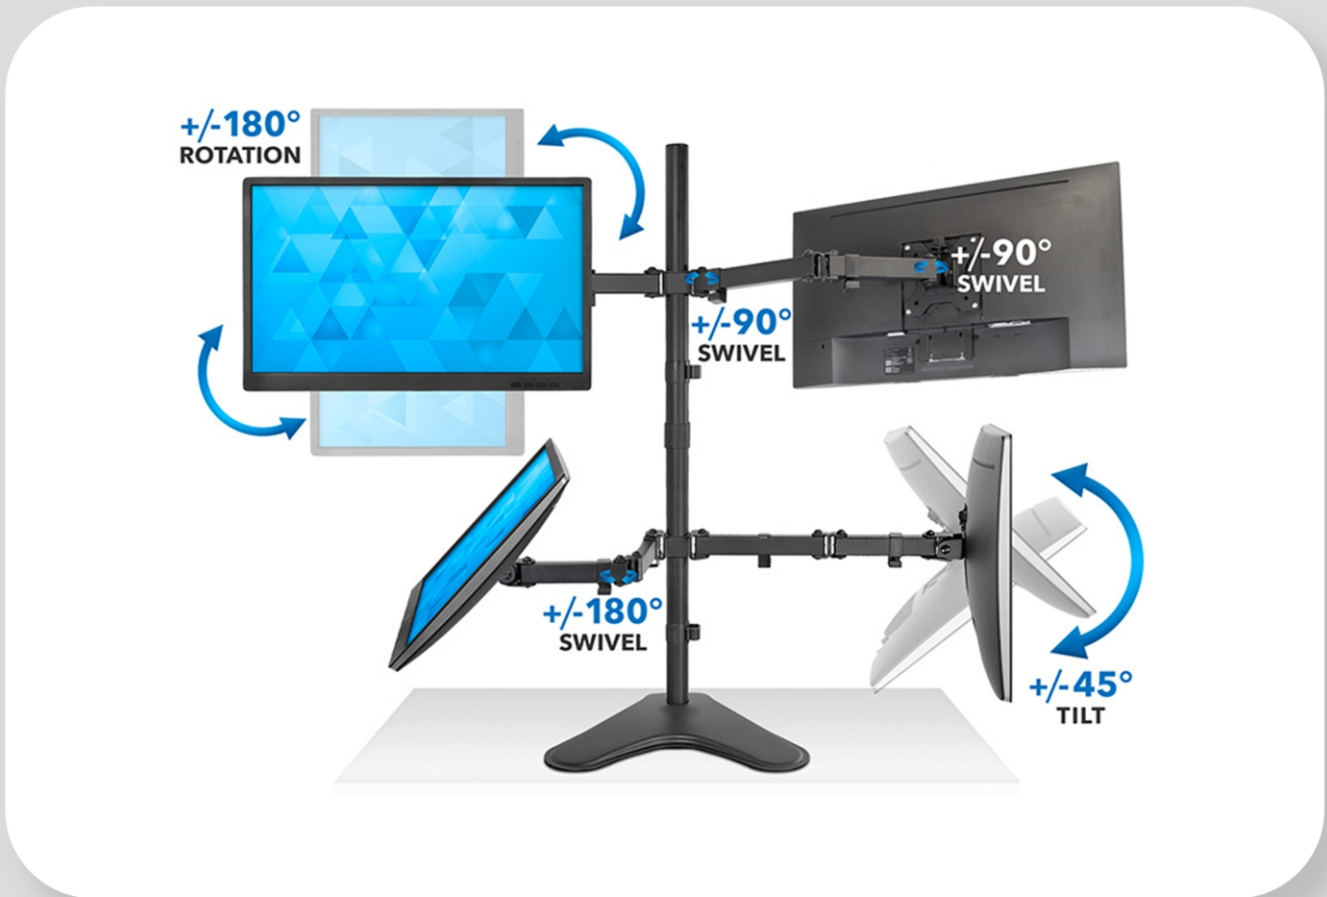

### Cable Management

Cable clips help keep your space neat and organized. Store the included hex keys in the clip on the pole, so you can adjust your monitors in a flash

### Freestanding Base

Freestanding base lets you place this monitor stand on top of your current desk. 15" wide design helps stabilize your screens and prevent tipping

#### **4 MONITOR STAND:**

Fits four computer screens upto 32 inches, with a maximum support weight of 10 kg per monitor each, using the 75x75mm or 100x100mm VESA square bolt hole pattern found on the back of the monitors.

#### **FREESTANDING MONITOR STAND:**

Avoid the clamp or grommet base and place your monitors freely on your desktop. Adjust your monitors, along the 82cm pole, to eye level and improve your posture

#### **FULL MOTION MULTI SCREEN MOUNT:**

Each monitor arm moves freely, allowing you to find the perfect setup. 45 Degree tilt up and down, 90 degree swivel left to right and a full 180 Degree screen rotation for landscape or portrait orientation

#### **FEATURES & STABILITY:**

Four monitor free standing desk mount sits atop all types of desks with its sturdy base. High Grade Steel and Aluminum build and Heavy Duty base

# ELEVATE YOUR MONITOR

## Ergonomic

Adjusting your monitor height can relieve tension on the neck, back, and shoulders for the work comfort you need.

## Improved Focus

Adding comfortable viewing to your work day and reducing muscle strain can improve energy, mood, and focus that leads to increased productivity.
